Energetica Workshop · Worksheet · facilities

Team: _____

Copy the values from the investment page, then work out each facility's marginal cost and LCOE (formulas on the help sheet).

Facility	Build price M	Power MW	Lifetime Rounds	O&M per Round	Fuel use kg/MWh	Capacity factor %	Marginal cost per MWh	LCOE per MWh

1 Round = 1 year = 364 days = 8,736 h · 1 season = 13 weeks = 2,184 h · Prices are per MWh.

Energetica Workshop · Worksheet · season log

Team: _____

One row per season. Write down what you bid and what came back, so you can compare seasons.

Round	Season	Our bids facility: price per MWh	Market price per MWh	Operating profit M	Notes
